LEG 1B

APRC Flash No. 3

Weather: Rain

Temperature: 16°C

Road Condition: Wet, slippery but smooth

After Stage 6 RIKUBETSU LONG 2

DRIVER COMMENTS

1. Pontus TIDEMAND

It's great. Slippery. It's good training to me.

3. Mike YOUNG

Still very slippery, we have lost lots of time, with electrical problem but we are ok.

4. Hitoshi TAKAYAMA

I am surviving, and enjoying the rally, and would like to keep this pace plainly.

6. Fan FAN

No water, no fuel, and stopped.

8. Dinesh DEHERAGODA

Much better than earlier, more confident with the car and we did not get used to the weather.

More confidence with the car now.

13. Wataru AONO

The road surface is getting far more rough, and (the stage is) getting more difficult. The condition of the car is ok, so far.

16. Hiroshi HOSHINO

The road is quite muddy and very slippery. We will adjust the settings of our suspensions for wet surface.
