DRIVER COMMENTS

1. Pontus TIDEMAND

I had really good morning. Fantastic. I really like it. I pushed very hard to win all the stages. The feeling is good, I really enjoy it so it is fantastic.

3. Mike YOUNG

This morning is pretty good, we've move back in the second place so that is really good. The road is a little bit dry on the gravel but the tarmac is absolutely treacherous. We were going slowly. It was still pretty good. It was tough though. I think I've been a little bit quicker in the slopes. My plan is to bring it home basically, look after the car.

4. Hitoshi TAKAYAMA

So mistakes. So many. But my concentration is high. I want to finish at a higher position.

8. Dinesh DEHERAGODA

This morning is not so good because the water pump is giving some problems. So the morning stage was really bad.

10. Atsushi MASUMURA

Very careful driving, steady, steady, steady. I hope to hold the third place for the podium.

11. Takahiro YOSHII

My objective for the day is to keep this position and finish they rally.

15. Tomonori NASU

I am happy with this position. The course is slippery.

19. Kumiko KOIDE

I want to finish the rally! My dream was to compete in this rally, so we made a lot of effort and preparations, with support from many people. So I will do my best to finish the rally.
