LEG 2

APRC Flash No. 8

Weather: Cloudy

Temperature: 18°C

At Honbetsu Rally Park (After SS 14 NEW ASHORO LONG 1)

DRIVER COMMENTS

3. Michael YOUNG

I am happy to keep third. This rally has been challenging for us and we have been pushing as hard as we can. In this afternoon we will keep doing what we do and bring time to finish. The car is giving me a strange feeling, but I just need to push on.

4. Hitoshi TAKAYAMA

So far no problem. I will keep pushing on, and bring the car to the finish.

7. Sanjay TAKALE

Weather has been very good, and we are on the road at the moment, and so looking to finish this rally for sure. Our plan for the rest of the day is very simple now, to keep the car on the road, maybe a couple of stages fast also, maybe the later part, and see if we can move on in one place higher if we can.

8. Tomohide HASEGAWA

A trouble with the car affected our performance yesterday, but our mechanics thoroughly fixed it so we have been good today. Recently I have been racing Super Taikyu (Super Endurance Race) only, but rallying is wonderful.

10. Atsushi MASUMURA

A trouble with the car affected our performance yesterday, but our mechanics thoroughly fixed it so we have been good today. Recently I have been racing Super Taikyu (Super Endurance Race) only, but rallying is wonderful.

11. Fuyuhiko TAKAHASHI

I am enjoying the rally.

12. Wataru AONO

The rally has been thrilling to me, in a close gap between the driver above me and next to me. I will do my best as we have just a few more stages to go.

15. Eiichi IWASHITA

I was chasing hard to catch up with the driver above me, but in the previous stage that driver encountered a trouble and we could move up to 1 position higher. Now I want one more above.

16. Satoru ITO

We re-started the rally today so driving easy for training.

21. Kimito KONDO

I am enjoying the rally more than past years.
