DRIVER COMMENTS

1. Gaurav GILL

(I feel) very good. It was a very difficult rally, very rough and very fast as well. Thanks to the team we had a good car in the morning, all the day yesterday. Today we changed some setup, but that wasn't very good, but anyway it is important that we are back.

2. Fabian Kreim

Very good, very nice experience for us. Especially here on this surface is , deep runts and a lot of loose gravel, compared to the other APRC ones it is completely new for us and very good.

We are happy with the pace. We had a few issues this weekend, but it was good to get to the finish on this one.
