LEG 1B

APRC Flash No. 3

Weather: Fine

Temperature: 18°C

Road Condition: Dry

After Stage 7 RIKUBETSU LONG 3

DRIVER COMMENTS

4. Robert BLOMBERG

It was ok. There's more ruts related to the corners bits, but no problem. The next stage is rough, and you gotta a little bit more cautious than the first run but we need to drive it, and we gonna enjoy it.

5. Yuya SUMIYAMA

The road surface is getting drier now, and tyres have more grips now. I will keep driving in good rhythm and finish the day.

7. Fuyuhiko TAKAHASHI

Tyres were not warmed up enough, and I got my car touched the guardrail. I think the next stage will be all right.

10. Eiichi IWASHITA

I think either right or left rear tyre had puncture.

13. Wataru AONO

Sadly I went off the course.

14. Tomohide HASEGAWA

The road condition got much better because of a good weather.

17. Mitsuyoshi KUROIWA

Finally the troubles are getting resolved, and I will push harder to catch up. The next stage is rough, and I could not drive as fast as I wanted during the morning, but I will reduce my pace a bit to finish it..

19. Masanobu CHIGIRA

It was the 3rd run of the same stage, and thus the road got quite rough, so I tried steady and as a result I drove faster than the previous run.
