### DRIVER COMMENTS

RC2			
1	1st	Mike YOUNG	TOYOTA C-HR
Everything is good, and we are ok. Just enjoying the rally today. Car is reliable and we have no issues, which is great for the first day. We have comfortable lead, so that we can test a few things today.			
2	2 <sup>nd</sup>	Atsushi MASUMURA	MITSUBISHI LANCER EVOLUTION X
It was good day yesterday. Everything went well, and we have no issues. I will drive carefully, but mostly I will enjoy the final day of the rally.			
4	5 <sup>th</sup>	Fuyuhiko TAKAHASHI	SUBARU IMPREZA WRX STI
We wasted over 2 minutes as the previous car got stuck and blocked the road. But that is the rally so we had to accept that. It is a long day today, and we have PAWSE KAMUY stage, which I am not really good at, so I will drive carefully to finish the rally.			
9	3 <sup>rd</sup>	Eiichi IWASHITA	MITSUBISHI LANCER EVO IX
I am gaining my speed gradually, but getting exhausted as well. I am not good at tarmac surface so I have to be careful on tarmac sections today, and then the rest will be just fine.			
10	4 <sup>th</sup>	Yasushi AOYAMA	SUBARU IMPREZA WRX STI SpecC
I could manage to come back as 4 <sup>th</sup> position, and not much gap towards 3 <sup>rd</sup> . So let' see how it will be today. We have long distance to go today, so I will not get relaxed yet and attack the stages with good concentration.			
RC3			
7	1 <sup>st</sup>	Yuki KOHAMA	TOYOTA 86
I had driveshaft issue which caught me at the final stage yesterday, but as it was a super special stage so I was allowed to continue with time penalty. Apart from that, my stage results were good so my feeling was right. I will do my best today, too.			
RC5			
8	1 <sup>st</sup>	Nao OTAKE	TOYOTA VITZ
Everything was good yesterday and car is alright. I still have to be careful on every single stages today, too, but I am looking forward to driving PAWSE KAMUY stage.
