Not much loose gravel on stages anymore and road surface is better now, but comparing with JRC drivers I am not doing good enough. Stage distances are short and thus I have not been able to make good use of the tyres. But we are the first in the international class and we will keep this position and finish the rally.

I think we are doing good. As this is my first rally in the past 3 years, I am driving on my own pace and we will push harder to improve our stage times.				
5	4	Satoru ITO	Masahiro KIHARA	MITSUBISHI Lancer Evo X
I could finish the stage without any problem at this time, but I have been scared and careful. I will try to finish the rally while improving my stage times.

Road surfaces are getting rough, so I will aim to finish the rally without problems.

I am improving, but so as others and I have not been able to narrow the gap with others yet. My aim is to secure and get the 3 rd position.
