This document has no regulatory power, except if referred to specifically in the Supplementary Regulations or a Bulletin and therefore should be used as a guide only. For regulations, please refer to the International Sporting Code, the FIA Regional Rally Championship Regulations, JAF National Sporting Regulations and the event Supplementary Regulations and any Bulletin that may be issued.

JRC competitors must refer to the Japanese version.

ATTENTION

Competitors, teams, media and all the concerned perspnnel must observe traffic laws and regulations of Japan. In accordance with principle of law observation, the Organizer hereby reminds you:

- Per 2017 FIA Regional Rally Sporting Regulations 20.4, violators of traffic laws/regulations will be strictly penalized.
- Applications from the past violators may not be accepted for the future events
- Violations of traffic laws/regulations during the event may cause fatal impact on the continuity of the on-going event and/or staging future events.

Here are some road rules in Japan that differ from international standards, but that will be strictly enforced. In particular:

Stop Sign

Road signs generally comply with the international system, with the exception of stop signs which are an inverted triangular shape (similar to 'Give Way' signs in other countries).

All cars must stop at EVERY railway crossing and watch for trains, before proceeding.

Don't exceed the speed limit which is 40km/h in built up areas, unless otherwise indicated, and 60km/h elsewhere. Speed limits on expressways are 70km/h.

Also, international visitors should be aware that a valid Japanese license or International Driving Permit is required for driving on public roads. International Driving Permits MUST be issued under the 1949 Geneva Traffic Convention and this will be stated on the front of the document. Please contact the organisers if you are unable to obtain such a license. German, French, Swiss, Italian, Belgian or Taiwanese driving license holders may request a translation of their license from JAF (local ASN of Japan). The combination of this translation and your driving license is valid as an alternative to the 'Geneva Convention' International Driving Permit. Except the above driving license holders, anyone wishing to drive in Japan will be required to switch your license to Japanese one (Gaimen Kirikae).

The detail of Gaimen Kirikae is on the website:

1. Introduction / Event overview

1.1 Welcome from the Mayor of Obihiro City

On behalf of the citizens of Obihiro City, we extend warm welcome to all competitors, crews, all the concerned personnel and spectators to Rally Hokkaido 2017.

This round of FIA Asia Pacific Rally Championships, where crews streak through the vast land of Tokachi, will have its 16th opening this year since it became a joint event with Japan Rally Championship round to be Rally Hokkaido.

The event is jointly hosted by one city and four towns in Tokachi region. Last year, our region was hugely damaged by typhoons, but thanks to the effort by persons concerned the event was successfully held under good weather, crowded with approx 38,000 people enjoying the charm of Tokachi as well as the rally.

Rally Hokkaido is the only international rally championship round held in Japan, and has become a regular event many fans are eagerly waiting for. I would like to say I am truly glad that Tokachi is hosting the Rally Hokkaido every year, accumulating more experiences and results year by year.

Wishing the Rally Hokkaido to be a great place and opportunity for rally fans, crews, team personnel and related people to meet new friends, people in this region are united together and welcome all the people concerned, with “omotenashi”, warm hearts of hospitality

Here in Tokachi, we are promoting regional industry policy “Food Valley Tokachi”, with “Food” and “Agriculture and Fishery” as its main pillars. And during the event, you can enjoy dishes featuring local food materials Tokachi is proud of, in the Service Park, too. I hope you will enjoy the beautiful scenery and foods this region offers as well as the Rally Hokkaido, and make your memory of the event unforgettable one.

As a closing remark, we sincerely wish this event is held safely, and will be the most exciting event in its history with everyone enjoying the rally to the fullest – and we wish the best rallying for all the competitors and the crews.

YONEZAWA Norihisa
Mayor, City of Obihiro

1.2 Event overview

This will be commemorative 16th FIA Asia Pacific Rally Championship event to be held in Japan since its inaugural event back in 2002. The event is loved by local citizens, and there is a event monument of Rally Hokkaido whose plate is renewed every year, in front of the Obihiro railway station. In 2003 the Rally Hokkaido became the candidate event of the World Rally Championship, and in 2004 it was run in conjunction with the inaugural WRC Rally Japan. However, from 2005 the two events were held separately and Rally Hokkaido became independent event again. Since then, the rally has been co-held with the Japanese Rally Championship and it is the only FIA international championships rally event held in Japan.

This year the rally will be held in mid September, a week earlier than the previous year's event. The weather around the mid-September in Tokachi region of Hokkaido is typical early-autumn with relatively more rainfalls. Average temperature in September there is around 16 degrees celsius. It is cold in the morning and night, but you can feel the warmth of the sunlight during the day. Tokachi has about 12 hours of daylight, beginning with the sunrise around 0506hrs.

The itinerary covers well-known land of Tokachi region. Spectator points will be prepared in 5 of the stages, which are RIKUBETSU, Sammy SATSUNAI(OBIHIRO), HONBETSU, OTOFUKE, and PAWSE KAMUY (ASHORO).

The Rally HQ and Media Centre will be located at the administration building of the Meiji Hokkaido Tokachi Oval Skating Rink in Obihiro city, the same location as the previous year. The main service park will be located at Kita-Aikoku Community Square, which was used as the main Service Park of WRC Rally Japan. In addition, service will be provided in RIKUBETSU on Leg 1, same as the previous year.

1.3 Information about Tokachi, Japan

Hokkaido is the northernmost island of Japan, and has a population of 5.6 million people. Comparing the population density to the nationwide average, 342 people per square km, and the figure of Tokyo, 5,629 per square km, Hokkaido has only 67 people per square km, thus, it is relatively sparsely populated. The island has vast areas of forest, mountains and agricultural land.

It is located around the same latitude as northern part of Italy and France. However, due to the effect of South Pacific Current, Hokkaido has long and cold winters. In most parts of Japan, summer is a season where typhoons affect its weather, but Hokkaido redeoves relatively low impact from them.

In appearance the Tokachi countryside is similar to some of the northern States of the U.S, and some people say its stages are somewhat similar to the ones in Wales. Its land is relatively flat and mainly agricultural. A mountain range running from the north to south divides the island and another mountain range runs from the center towards the west, and these two range brings preferrable effect on Tokachi weather. The rally roads are in the flat Tokachi basin and some head into the foothills of the mountain ranges, but the route is not mountainous.

Hokkaido is a relatively new area in Japan, whose development began around 200 years by pioneers from the main island, Honshu. Prior to that, this island's only residents were native people called Ainu, who originaly came from Siberia through Kamchatka peninsula. Due to this, many of the towns, places, rivers and mountains are named in Ainu language, and Rally Hokkaido named its stages based on Ainu words.

Obihiro, where the main Service Park is located, is a city with approximately 170,000 inhabitants. It is a modern looking city and is well serviced with hotels and restaurants due to its role as a regional business centre. There is well laid-out and signposted (in English as well as Japanese) road system. All roads are named from a central point according to their direction and distance from that point. For example, the address of the popular Tokachi Beer restaurant is West 1, South 9-6.

Many of the local residents are very enthusiastic about motor sport. International rally events have taken place since 2001 - from 2004 to 2007, WRC was also held here. That is why rally sport is well understood and supported by the locals.

Maps of Obihiro city is attached as Appendix B.

5. Service Park and Rikubetsu Service

5.1 Information about the Service Parks

There will be two service parks to be established in this event, including Rikubetsu Service. The main Service Park will be located in Kita Aikoku Community Square, and the other service park, Rikubetsu Service area will be located next to the Rikubetsu circuit in Rikubetsu town. The surface in both service areas is gravel.

Allocation of service bays will be published on Thursday 7th September, 1800hrs, on the Rally Hokkaido official website (<http://www.rally-hokkaido.com/en/>)

Kita Aikoku Service Park will open for competitor bump-in from Monday 11th September at 0900hrs.

5.3 Service Park Guidelines

- All vehicle passes, including Service and Auxiliary vehicle passes **must** be displayed on the top of the windscreen on the passenger's side, from September 15th to 17th when accessing to the service parks. **No vehicles without those passes will be allowed to enter the restricted areas.**
- (Friday, 15th September and thereafter) Please note there are many one-way roads in the service park. Also, please be advised that service vehicles accessing the service park must use the public entrance during the time when competing cars are accessing the Service Park.
- Parking of any cars on driving lanes in the Service Park is strictly forbidden – vehicles with passes are not exception. Please park at the adjacent auxiliary vehicles parking area.
- Please be advised that parking of team or team personnels' vehicles at regrouping areas is strictly prohibited.
- Credential passes must be worn in all areas in the Service Park, except in the spectator areas. Access to the designated area for each teams and their work areas are not allowed without proper credential pass.
- All vehicle traffic must be in the directions shown on the maps. All those who are travelling in the Service Park in vehicle must follow the directions given by the officials and marshals, with speed not exceeding 30km/h.
- All teams and competitors are responsible for proper handling of any waste produced at their service areas. If wastes are found in a service bay after the event, process fees for such wastes will be invoiced to the competitors who occupied the bay.
- All power cables and junctions boxes in the Service Parks are for existing lighting only and are not to be used unless otherwise approved by the Service Park Coordinator.
- For regulations for Service Park, Services and Flexi Services, please refer to 2017 FIA Regional Rally Sporting Regulations Article 48,49,50,51 and 52, and their corresponding articles in its V4.

6. Two-way radio

The use of two-way radios is strictly controlled in Japan. The deadline for applications to use two-way radio communication equipment was three months before the rally, and the application was closed on June 14th.

7. Fuel and Tyres

Please refer to the 2017 Rally Hokkaido Supplementary Regulations.

8. Import of vehicles and spare parts

8.1 National laws / customs clearance

As domestic logistics can be expensive, the organizer of the Rally Hokkaido recommends that all sea freight to be imported through the closest port to the rally venue, Port of Tomakomai. Customs clearance procedure must be followed for all the carry-in items from overseas as well. Container transportation from Tomakomai to the service park takes about three hours.

The general principles of customs clearance are as follows:

- (1) FIA CARNET is required and mandatory for all overseas registered cars that are to be driven on the public roads in Japan (i.e. rally car, recce car, service van and other cars). The carnet is to be issued by each country's ASN. When importing cars with FIA carnet, certification document for the carnet issued by JAF (ASN of Japan) is also required. Please contact the organizer for the acquisition of the certification. The carnet-imported vehicles must be equipped with the FIA carnet and its JAF certification all the time, and those should be available to be presented to authority when challenged. In addition, every automobile (including rally cars and every foreign registered vehicle) which is driven on public road in Japan has to be covered by Jibaiseiki, which is a compulsory insurance.

Note: Temporarily imported vehicle which is registered in a country that is not a party to the 1949 Geneva Convention must be inspected and registered in Japan on arrival, even if imported under FIA carnet. The inspection requires time and payment of a fee. For more information please contact KURIBAYASHI Co. Ltd. (details below).

- (2) ATA CARNET can be used for tools, parts, tyres and promotional items. All the items imported under ATA carnet must be re-exported after the rally. The import of contraband goods is prohibited, even if those are intended for temporarily import.
- (3) PRO FORMA INVOICE - please check with the organiser or your freight agent on use of pro-forma invoices.

Above documents will be required when applying for special import permission for Hazardous items such as high-pressure gas cylinders, and medical supplies. Import of those items needs to be arranged by the competitors themselves..

It is recommended that anyone wishing to import vehicles and goods for Rally Hokkaido contact the official freight agent for Rally Hokkaido shown below.

8.2 Vehicle regulations

Vehicles temporarily registered for Rally Hokkaido have to comply with the Japanese Road Vehicles Act and the Japanese Road Traffic Law and the provision of the JAF National Sporting Regulations for Vehicles (lighting devices, noise levels of the car, etc) except when Appendix J of the FIA International Sporting Code differs.

For vehicles that are not already registered in Japan, below two documents are required and must be carried in the vehicles and the third in the below list is recommended for competition vehicles:

- (a) A translation of the Carnet certification document, issued by JAF and distributed by the organiser. This document serves as a temporary vehicle import compliance document. For rally cars this is included in the entry fee, however for other vehicles processing fee will be charged
- (b) 'Jibaiseiki'. A compulsory insurance. Every automobile (including rally cars and every foreign registered vehicle) which is driven on public road in Japan has to be covered with it. While it is included in the entry fee for rally cars, other vehicles are not. This insurance can be purchased with approximately JPY6,500 (per each vehicles) for other vehicles that are not registered in Japan.
- (c) Third-party rally car insurance. This is recommended for rally cars and recce cars. The fee is approximately JPY20,000 per car, depending on engine displacement.

The Entry Booklet in Appendix D contains a section on importing vehicles. Vehicle details are required for documents (b) and (c) above.

8.3 The condition for driving in Japan

International visitors should be aware that a valid Japanese license or International Driving Permit is required for driving on public roads. Only the International Driving Permits issued under the 1949 Geneva Traffic Convention is valid in Japan, and this must be stated on the front of the document. Please contact the organiser if you are unable to obtain such a license. German, French, Swiss, Italian, Belgian or Taiwanese driving license holders may request a translation of their license from JAF. The combination of this translation and your driving license is valid alternative to the International Driving Permit issued under the 1949 Geneva Convention. If your driving license is not in the above categories, either taking driving examination or switching to Japanese license is required. (Gaimen Kirikae).
The detail of Gaimen Kirikae is on the website: <http://www.jaf.or.jp/e/switch.htm>

8.4 Difference of Rules of the road

	International regulations	Japanese regulations
Stop sign When the intersection has the Stop sign as shown, all cars must come to a full stop and check in all directions before crossing		
Light signals		
Level-crossings with gates Drivers must stop in front of a level-crossing, even if there are no stop signs, gates, half-gates or light signals giving warning of the approach of trains. They shouldn't move off again until they have ascertained that no train is approaching.		
Other level-crossings		
Do not overtake You mustn't enter the right side of the road in order to overtake another vehicle in zones that have the road sign.		
Compulsory minimum speed

②

③

Drivers mustn't change lanes where the lanes are divided by a yellow line (①). If the lanes are divided by a white line and a yellow line parallel to it, the drivers on the side of the yellow line may not cross into the other lane (②). Drivers are allowed to cross into the other lane for overtaking (③).

9. Helicopters

9.1 Registration procedure / information

All helicopters flying in support of the rally must be registered with the organiser. There will be a standard protocol for rally helicopters in rally airspace and only registered aircraft will be permitted to fly in this space. A helicopter registration fee will be charged.

Registration of helicopter for this event was closed on 25th July.

A list of landing sites and GPS coordinates for special stages and Service Park will be provided later..

Attendance at the pilots' briefing is obligatory for all the registered pilots.

12. Reconnaissance

12.1 Registration for Reconnaissance

Date & Time: Wednesday 13 September 1300hrs – 1900hrs
Location: Rally HQ

Registration for reconnaissance will coincide with administrative checks.

12.2 Summary of specific regulations and instructions for reconnaissance

General reconnaissance regulations are included in Article 25 of the FIA Regional Rally Sporting Regulations and Article 9 of the Rally Hokkaido Supplementary Regulations.

Reconnaissance must take place according to the schedule shown in Appendix A.3. There are 3 separate recce groups. Car #1 to 15 are assigned to Group A, while the rest of APRC/Asia-Cup competitors are assigned to Group B. Third group is for all the JRC competitors.

Competitors must register full details of their vehicle prior to leaving for reconnaissance. At registration competitors will be issued a reconnaissance pass and a vehicle identification sticker. The vehicle identification sticker must be displayed on the left rear side window during reconnaissance. The reconnaissance pass is valid for 2 passages and must be carried in the reconnaissance vehicle at all times, and must be submitted to an official for his/her signature at the start of each special stage.

Crews are authorized to drive a maximum of two passages through each special stage, and must drive in the same direction as the rally. Where a special stage is repeated, the maximum number of passages will still be only two.

During reconnaissance, competitors must strictly comply with the road traffic laws. At all times the safety and rights of other road users must be respected. Rally officials may monitor the behaviour of competitors on the reconnaissance route with visual, electronic, photographic or video methods. All offences will be reported to the Stewards who may impose penalties up to the refusal to start.

Speed limits as signposted on all roads used during reconnaissance must be observed. Failure to comply will result in a penalty to be applied by the Stewards.

APRC and Asia Cup competitors must use tyres of series production type designed primarily for asphalt use. Use of competition tyres is forbidden.

The location of petrol stations and convenience stores is marked on the Route Map. Most (but not all) stores will accept credit cards though cash is more commonly used as preferred method of payment.

12.3 Recommended route to use from the SS finish, back to start

The recommended route for recce is shown in the recce instruction document which is to be provided at the time of registration.

13. Scrutineering, marking and sealing

13.1 Date, place and time

Date and time: Thursday 14 September 0830hrs - 1900hrs
Friday 15 September 0830hrs - 1230hrs
Location: Sanyo Konetsu Super Pit Chuo-ten
10 W8, S9, Obihiro

Competitors should nominate preferred time for scrutineering by filling in the details on the Entry Booklet.

If no nomination provided, the organiser will assign a timeslot for those competitors. The scrutineering schedule will be published on the Official Notice Board on Wednesday 13 September 0900hrs.

13.2 Preparations to be made before the car is brought to scrutineering

Competitors should position their cars at the entrance to the Scrutineering Bay in accordance with the published schedule, and follow the direction of the officials present. In the case that the entrance is crowded with vehicles of other competitors and entry on time is not possible, a member of the team concerned should find the post marshal at the entrance and notify him or her of the situation.

Car number stickers, front plate, front door panels (with car numbers) and organiser's advertising stickers must be affixed to the car accordingly prior to the entry to the scrutineering. Please refer the Supplementary Regulations for the event for the positions to be affixed.

All the on-board camera must be firmly attached to the vehicle. On-board cameras attached to the cars after the scrutineering are not allowed to use during the event.

The following documents / items should be brought to scrutineering:

- Scrutiny Sheet; given to competitors on completion of Administrative Checks.
- Current vehicle registration papers (Not required for cars registered overseas).
- The vehicles motorsport logbook (If available).
- The rollcage homologation papers.
- FIA Homologation Form for the vehicle including all extensions/updates
- Helmets, FHR/HANS device, driving suits, underwear, socks, balaclavas, racing shoes and gloves.
- Declaration for the Use of On-board camera.

Competitors should make sure they are familiar with Appendix J to the FIA International Sporting Code, especially Articles 252 (General Prescriptions for production Cars) and 253 (Safety Equipment), Chapter 3 of Appendix L to the the FIA International Sporting Code, and FIA Regionl rally Sporting Regulations Articles 26, 27 and 28, as well as Article 11 of the Rally Hokkaido Supplementary Regulations.

For the JRC competitors, please refer to the JAF Sporting regulations.

13.3 Route instructions to scrutineering

The location of the Sanyo Konetsu Super Pit is marked on Obihiro city Map included in Appendix B. Turn left after exiting the Service Park and make another left turn, then cross the Satsunai river and turn right at the intersection with Route 236 (where 7-11 store and Hokuren gas station are located). Proceed 400m and turn left (at the corner with ENEOS gas station) and follow the road for 2.73 km, then turn left at the West 5 - South 19 intersection (where AEON store is located). Follow the road for 1.58 km to West 8 - South 9 and you will see a Mobil sign of the Super Pit on your left, sitting back from the street, with its Mobil oil sign in front. .

13.4 Final Scrutineering

Final Scrutineering for APRC competitors will be held at Sanyo Konetsu Super Pit Chuo-ten, the same location as pre-event scrutineering. Competitors who are required to attend post-event scrutineering will be notified at the entrance of the Finish Parc Ferme. Please follow the instruction to be given there by an official for final scrutineering.

14. Shakedown

Shakedown will be held at Sammy SATSUNAI SSS, which is adjacent to the Kita Aikoku Service Park.

How to get to Obihiro (the city hosting the Service Park and the Rally HQ).

From Tokyo / Narita International Airport to Haneda Airport

There is Airport Limousine bus service connecting New Tokyo Int'l Airport (Narita/NRT) and Tokyo Int'l Airport (Haneda/HND). Its fare is JPY3,100 per person. If you are taking connection flight of Japan Airlines (JAL/JL), your stop at Haneda airport is Airport Terminal 1. For those taking connection flight of All Nippon Airways (ANA/NH) or Air Do, please get off the bus at Terminal 2. Average travel time between those two airports is 65 to 85 minutes.

From Tokyo / Haneda Airport to Tokachi Obihiro Airport-

There are 7 daily flights available between Tokyo/Haneda Airport to Tokachi Obihiro Airport. Japan Airlines provide four of them, while Hokkaido International Airlines (AIR DO) and All Nippon Airways (ANA) co-operates the rest 3 flights. JAL flights departs from Terminal 1 at Haneda, while ANA and Air Do flights operates from Terminal 2.

From Sapporo/Chitose Airport to JR Obihiro Station

For those coming from New Chitose Airport to Obihiro by train (JR railway), a transfer is required at Minami Chitose (South Chitose) Station, which is the first stop from the airport station, arriving from the airport in approximately three minutes. One-way tickets to Obihiro will cost about JPY6,300.

From Sapporo/Chitose Airport to Obihiro by car

Take Hokkaido Expressway from "New Chitose Airport IC" or "Chitose IC" towards Sapporo, and at "Chitose Eniwa JCT", which is approx. 9km from the New Chitose Airport IC, drive into "Doto Expressway". Follow the signs all the way to Obihiro for approx. 140km. At "Obihiro JCT", turn left to drive into "Obihiro-Hiroo Expressway" and continue your journey to Obihiro. The nearest exit to the Kita Aikoku Service Park is "Obihiro Kawanishi IC".

From Tokachi Obihiro Airport to the central Obihiro downtown-

Airport shuttle bus services are available connecting the airport and major downtown hotels, departing the airport approx. 15 minutes after the arrival of each flight. The fare is JPY1,000 and the travel time is approx. 40 minutes. Taxis and rental cars are also available at the airport.

From the Obihiro downtown to the Rally HQ.

Travel from JR Obihiro Station to the Rally HQ takes approximately 10 minutes by car. If you are driving from the Tokachi Obihiro Airport to the Rally HQ, travel time is approx.40 minutes.

21.4 Photocopy Services

A.2 Itinerary compared with previous years

The itinerary of this year's Rally Hokkaido is very similar to the one for the previous year's event, but a new stage "SIPIRIKAKIM SHORT" is introduced.

Leg 1 consists of Leg 1A, where competitors drive Sammy SATSUNAI River for SS1 after the Ceremonial Start on Friday, and Leg 1B, which is to be held on the Saturday. In Leg 1A, spectators who attended the ceremonial start can walk to the SS1 to enjoy the action.

Leg 1B consists of RIKUBETSU LONG, KUNNEYWA, "SIPIRIKAKIM SHORT", which is a new stage, and PAWSE KAMUY as the day's core stages. Stage layouts of RIKUBETSU LONG and PAWSE KAMUY are the same as the previous years' ones. The stage start point of KUNNEYWA is moved back to the same location as 2015's. Like the previous year's event, 2nd and 3rd loop of RIKUBETSU LONG stages are driven in succession, with a Flexi-Service between them. After the 2nd loop of the stages, rally cars are to come back to Obihiro, where competitors drive Sammy SATSUNAI stage to complete the Leg 1B. Service in Rikubetsu will be hosted in Rikubetsu Off-road Circuit, the same venue as the RIKUBETSU LONG stage just like past years' events.

In Leg 2, crews will drive OTOFUKE REVERSE, NEW HONBETSU, and the long stage - NEW ASHORO LONG, followed by Sammy Satsunai stage. This year, JRC cars, too, will drive the 2nd loop, in addition to the APRC cars..
